## Creative Junior Architect

We are looking for a creative junior architect with a hands-on approach to design, embracing experimentation, testing, and prototyping as essential parts of the process. The ideal candidate takes initiative and explores unconventional ideas in contemporary architecture while maintaining a sharp eye for detail. With a drive to push creative boundaries, they balance innovation with practicality, bringing fresh perspectives to the team. Ideally, they have around two years of work experience, but above all, curiosity and ambition are key.

We're looking for someone, who:

- likes to join an international team and therefore has a good working proficiency in English
- enjoys inspiring other people
- has around 2 years of experience
- has the ambition to grow together with the company
- is flexible, independent, and hands-on, with a professional attitude
- is available for 32-40 hours a week

What do we offer you:

- A dynamic position with a young, international architecture office, that is committed to a fun, healthy and more sustainable future.
- Plenty of opportunities to develop and grow
- Frequent office excursions with the whole team
- Monthly inspirational lectures with food and drinks on the house
- A workplace in the heart of and view over Rotterdam
- A salary that matches your capabilities

Interested? Then please email a cover letter, your CV and your portfolio that showcases what we are asking for to [work@nudus](mailto:work@nudus), attention of Johanneke van Helden.
